

STUCO MEANS...

120+ years of experience

Came to stay: More than 120 years of experience in safety and professional footwear.

Production within Europe

Fair and safe: We rely on 100% European in-house own production.

Environmental management and sustainability

More than just empty words: Sustainability is part of our corporate culture.

Durability and quality

365-day warranty on production and materials: Because we stand by our quality

In addition to uncompromising quality, every shoe quality and a high level of social responsibility and a strong environmental awareness.
